OUR APPROACH TO PRICING

Origin partners with our clients in a variety of ways. We understand that every investigative case is unique and requires a tailored approach. We are committed to providing you with the highest level of professional service, ensuring that your needs are met effectively and efficiently.

Our standard rate for investigative work is \$250 per hour. However, we believe in fair pricing and recognizing the specific circumstances of each case. That's why we take the time to review every case individually, understanding its complexity, scope, and requirements. Based on this comprehensive evaluation, we will present you with a custom proposal that takes into account various factors.

Our proposals are designed to offer flexibility and affordability to our clients. Depending on the nature of your case, we may provide options beyond our hourly rate. These options can include flat rate services, allowing you to have a clear understanding of the costs involved from the outset. We also offer reduced rate services in certain cases, providing you with cost-effective solutions without compromising the quality and integrity of our work.

Transparency is important to us. In addition to our professional fees, we want you to be fully aware of any expenses incurred during the investigation. Rest assured, we bill all expenses at cost, meaning you won't be charged any additional markups or hidden fees. This way, you can have peace of mind knowing that you are only paying for the necessary expenses directly related to your case.

Our dedicated team of experienced investigators is committed to delivering exceptional results while maintaining the highest standards of professionalism and confidentiality. We understand the importance of trust and discretion in investigative matters, and you can rely on us to handle your case with utmost confidentiality and respect.

Should you have any further questions or require additional information, our friendly and knowledgeable team is here to assist you. Contact us today to discuss your specific investigative needs, and let us provide you with a customized proposal that meets your requirements while delivering outstanding results.
